BLONDING SERVICES EXPLAINED

Traditional highlights:

Classic foil highlights placed from root to tip for even, noticeable brightness. Because they start at the root, they do require more regular salon visits (usually around 6-8 weeks) compared to lived-in techniques.

Babylights:

Babylights are ultra-fine, delicate highlights from root to tip. These create a blended grow out with no harsh lines. Because the highlights are so fine, regrowth is less noticeable, allowing for more flexible maintenance between salon visits compared to a traditional highlight.

High impact blonde:

This service creates bold, bright blonde while maintaining a soft, blended root for seamless grow out. You get maximum brightness with minimal maintenance.

The lived-in reset:

This service is designed to revive any existing lived-in colour without fully recolouring your hair. It refreshes brightness, blends any visible regrowth and adds tone where needed—keeping your blonde or dimensional colour looking fresh and polished.

The ultimate lived-in blonde:

This service is a low maintenance blonding technique that features a soft, blended root and bright, dimensional blonde through the lengths. It grows out seamlessly with no harsh lines. Perfect for those who want to stay blonde but without the frequent salon visits.

Halo highlights:

These highlights focus on adding brightness around the hairline and parting and create brightness when hair is up or down. Enhancing the most visible areas of your hair. These highlights are so targeted, they're low maintenance, adding an effortless lift to your look. Perfect for those in-between appointments.

The signature face frame:

Designed to add brightness around the front of the face. These can be soft and subtle or bold and defined. Visible when hair is up or down.

Toner top up:

This is a quick service that refreshes the tone of your hair. Perfect for keeping your blonde looking flawless between appointments or removing unwanted brassy/yellow tones.

Client info

□—————□
If you are an existing lived-in/balayage/foilyage client of mine and have read through my new price list and new services but are thinking “what the f###k is it I have done?”, apologies from me, I know this must all seem so confusing.

so let me try and explain...

- Mega foilyage is now High impact blonde.
- Mega highlights is now Full babylights
- Foilyage refresh is now The lived in reset
- Full foilyage is now The ultimate lived in blonde

Along with the newly named services, you have a few new service options for refreshing your blonde locks.

I have added these to my menu so that I gives you more flexibility with budget and time. If you have any questions, please Whatsapp me 07752313853
